

Aurora Public Schools

Comcast Internet Program Helps APS Families

Through the Internet Essentials program offered by APS partner Comcast, many families have received a big discount on broadband Internet and a desktop computer. Comcast is offering the program again this upcoming year.

Internet Essentials provides affordable access to the Internet, a discount-priced computer and computer skills training to low income families. Broadband service is offered to families for \$9.95 per month with the option to purchase a computer for less than \$150. Free access to digital literacy training is also offered.

In order to be eligible for the program, households must be located where Comcast offers service, have at least one

child receiving free or reduced price school lunches through the National School Lunch Program and be a new Comcast Internet subscriber.

Interested families should call Comcast at 1-800-266-2278 or visit internetessentials.com for more information.

The Ingredients of APS: It's Who We Are

Aurora Public Schools is proud to serve the students and families of Aurora each day. From our international mix of students to our wide range of school choices, diversity is one of our strengths.

Here's a brief look at APS, from the inside out:

- We are the sixth largest school district in Colorado with 59 schools.
- Our 38,000-plus students come from more than 130 countries and speak more than 110 languages.
- Elementary, P-8 and K-8 non-charter schools offer free, full-day kindergarten.
- Students have the unique opportunity to explore careers through academic and career pathways: Arts and Communication; Business; Health Sciences; and Science, Technology, Engineering and Math.
- APS offers the International Baccalaureate Programme, which focuses on rigorous academics and intercultural understanding for students in elementary through high school.
