## Children's Hospital Colorado Landscaping Project Lands at Laredo

In the spirit of teamwork, all hands were on deck recently at Laredo Elementary School for the sixth annual Children's Hospital Colorado landscaping project. More than 60 volunteers met at Laredo to give the school a landscape makeover, a new fence and new playground equipment.

This is not the first time that Children's Colorado staff have donated their time to improve APS. Last year, South Middle School's exterior was transformed thanks to Children's Colorado volunteers and sponsors from throughout the metro area. The tradition continues this year with more landscaping and facility helpers and more sponsors.

A special thanks to APS Maintenance and Operations supervisor Tim Stanford, who is instrumental in organizing and coordinating this project each year. In addition, Pickens Technical College staff member Bill Cary provided insight for some of the landscaping ideas.

Thank you to this year's sponsors:
