Board Approves APS Community Campus P-8 Attendance Area

After careful consideration, the APS Board of Education has approved the attendance area for the new P-8 school currently under construction on the APS Community Campus near Airport Boulevard and 2nd Avenue. The boundary changes will go into effect in the 2015-16 school year.

Last spring, APS established an attendance area committee to evaluate boundaries for schools in the vicinity of the new school. The committee solicited feedback at several community open houses and meetings held in October. The attendance area decision was made after considering community feedback, reviewing the committee's adopted criteria and assessing optimal enrollment for the new P-8.

Beginning in January 2015, APS will hold a series of community meetings to share pertinent information about the new school with parents. The school will open in September 2015 and serve approximately 900 students in preschool through eighth grade.

APS Board members and students join APS Community Campus P-8 Principal Carrie Clark, far right, at the groundbreaking in September.

Support APS Students on Colorado Gives Day

Brooke Connelly, a junior at Hinkley High School, is an athlete who takes advanced classes and gives back to her community. Even though Brooke has the skills and determination to get into college, it is difficult to put all of the pieces together – applications, scholarships and financial aid. However, your support will shape Brooke's future.

Dec. 9 is Colorado Gives Day, an annual statewide movement to celebrate and increase philanthropy in Colorado through online giving.

At the Aurora Public Schools Foundation, we support more than 40,000 students like Brooke by:

- Creating a college-bound culture through Future Centers, an innovative approach to encouraging postsecondary readiness
- Supporting classrooms, programs and schools
- Providing scholarships for continued education

Learn more and give where you live by visiting ColoradoGives.org/apsef.
