Debate, Drama Meet Center Stage at CenturyLink Classic

Winning and losing isn’t everything. Sometimes, it’s the journey that matters most.

APS high school students are learning this now more than ever thanks to their participation in the Denver Urban Debate League. Students demonstrated their skills recently at the DUDL’s CenturyLink Classic at Aurora Central High School, where they showcased their talents against each other as well as other students from across the metro area.

Through DUDL’s debate, drama and impromptu activities, students gain skills that will lead to powerful credentials down the road.

Quote Me on That:

On experience with debate and DUDL:

“This has helped me become more confident in myself. I believe in myself. I can speak publicly without being shy around people.”
– Hinkley High School senior Zakira Seidu-Aroza

“I feel like it’s really good and efficient. It teaches you a lot of stuff. I really like the improv pairs. It lets you connect with your partner.”
– Aurora Central High School freshman Wendy Camacho

Pickens Technical College: Education That Works

Are you seeking an opportunity to acquire state-of-the-art skills, knowledge and work habits that will help you succeed in the workforce? If so, Pickens Technical College is the place for you!

- Accredited by the North Central Association of Colleges and Schools as part of Aurora Public Schools and the Colorado Community College System
- Nearly 50 certificate programs for adults and high school students, including Cosmetology, Arts, Media, and Communication, Human Services, Engineering and Technology and much more
- More than 150 knowledgeable and caring staff members
- Flexible class schedules, including evening programs, to accommodate all lifestyles

Pickens Tech can help put you on the path to your dream career!
