APS Board of Education: Heroes Behind the Scenes

January is School Board Recognition Month! APS is grateful for the numerous sacrifices each Board of Education member has made and continues to make to help every student shape a successful future.

APS board members go above and beyond for our students. They spend their personal time attending meetings; participating in school functions; reviewing reports, agendas and proposals; and making important decisions for the benefit of all APS students.

School board members receive no financial compensation for the countless hours they serve.

Please take a moment to share your gratitude with board members for giving so selflessly of themselves to serve APS students, parents, staff and community members.

Hats Off to APS’ Midterm Graduates!

Congratulations to the more than 30 students who recently earned their high school diplomas at Aurora Public Schools’ midterm commencement ceremony. The graduating class included students from Aurora Central and Gateway high schools, Aurora West College Preparatory Academy and Rebound Ombudsman North and South.

Families gathered to witness their loved ones walk across the stage and grab hold of what they’ve worked hard to achieve. Aurora’s first poet laureate, Jovan Mays, kicked off the event with a powerful poetic performance, providing the students with a few words of wisdom. After the presentation of diplomas, graduates joined their guests to celebrate over cake and punch.

APS commends each graduate for their perseverance and determination to reach new heights. We salute you, Class of 2015!
