Vista PEAK Exploratory Students Shape Successful Futures

Students at Vista PEAK Exploratory recently spent the day learning about different career options. Many kindergartners and first graders dressed up in the attire of the professions they plan to pursue.

One of the goals in Aurora Public Schools’ strategic plan, APS 2020: Shaping the Future, is that every student will have a plan for his or her future.

Mia Bendt plans to be a doctor when she grows up because doctors give you shots and medicine to keep you healthy.

Christian Flores says he loved learning about dentistry.

Daniel Sias wants to help people and become a firefighter.

Maya Reeves loves baking and hopes to own her own bakery one day.

Kindergarten Registration Begins April 12

APS will register students for kindergarten for the 2016-17 school year beginning Tuesday, April 12 at the Centralized Admissions office. Spring registration allows time for parents to complete the enrollment process at their child’s home school before summer break.

APS Centralized Admissions
1085 Peoria St., Aurora, CO 80010
Mon. - Fri., 7:30 a.m. - 4 p.m.

Current APS preschool students do not need to re-register and may enroll directly at their home school beginning April 12. To determine which school your child should attend, use the online address lookup tool at aurorak12.org/schools/address-lookup-tool.

Children must be 5 years old on or before Oct. 1, 2016 to start kindergarten in August 2016. For information about registering students of any age, call 303-326-2200 or visit admissions.aurorak12.org.
